Local Technology Company Continues to Be Recognized Nationally
Protegra Named To List of Fastest Growing Companies

Winnipeg, Canada - Protegra is pleased to announce that for the second year in a row it made the PROFIT 100 Ranking of Canada's Fastest Growing Companies. The Winnipeg-based company was 100th on this year's list, the 17th annual PROFIT 100 Ranking. Protegra grew by 658% during the survey period.

Protegra is a business-process and information-technology company that combines knowledge of organizational process with IT to provide superior solutions. The company currently employs 49 people. "At Protegra, our clients share with us their business processes," explains Wadood Ibrahim, CEO for Protegra. "We incorporate these findings into business solutions that dictate innovative IT solutions. This is why we are different, and why Protegra is one of Canada's fastest growing companies with clients in Europe, Asia and North America. We are very pleased to be recognized by PROFIT. This award is a great external recognition of our continued success."

PROFIT 100 profiles the country's most successful growth companies, Ranking Canada's Fastest-Growing Companies by five-year revenue growth. Published in the June issue of Profit and online at www.profitguide.com, Profit 100 is Canada's largest annual celebration of entrepreneurial achievement. According to PROFIT Editor, Ian Portsmouth, "We're happy to welcome the 2005 Profit 100 winners to the most exclusive peer group of its kind in Canada. Canada's fastest-growing companies are generating the innovation needed to succeed on a global scale."

Protegra Technology Group Inc. - Business-Driven IT Solutions. Protegra is a Canadian company with proven experience as a designer and developer of enterprise software solutions. Protegra's clients are based on three continents, in an array of industries from the financial services sector to gaming, agriculture and healthcare. Founded on the principle of partnership with its customers, Protegra's 49 plus employees believe successful technology projects are based on a complete understanding of our customers' businesses, solid technology delivery capability, and clear communication.
