Winnipeg IT Companies Are Ahead of the Game

Introducing the newest technologies to Winnipeg business

Winnipeg, Canada – Protegra will be co-hosting along with two other local companies and Microsoft the Winnipeg Visual Studio .NET 2010 launch event on May 11th at the Imax Theatre. This one day event is aimed at educating Winnipeg businesses on the newest technologies coming from Microsoft and what local companies can do to leverage them.

Wadood Ibrahim, CEO of Protegra, believes that events like this are important for Winnipeg's IT sector.

"Winnipeg is home to some of the most talented, leading edge IT practitioners in Canada," says Ibrahim. "An event like this further proves the depth of our IT capabilities in Winnipeg."

D'Arcy Lussier, a Microsoft MVP for ASP.NET, and Jason Klassen of Protegra will be presenting on the new web development capabilities.

"We're excited to bring a day of sessions highlighting developer productivity, application lifecycle management, and web development using these new technologies," says Lussier. "This is an exciting time for professionals developing software applications."

For more information and details on how to register for this limited-space event, visit www.winnipegdotnet.org.

Protegra is a software development and management consulting company based out of Winnipeg, Canada.
